PUNCHING \& BINDING SOLUTIONS

## Dual corner rounding machine

The DCR400 is a compact machine designed to make round corners on any material ranging from books, note pads, diaries, cards, mouse pads... Right and left corners can be simultaneously in a single stroke. The cutting thickness of up to 100 mm combined with a mechanical speed of up to 24 cycles / minute provide optimum output for one man operation (all outputs are based on 80 gsm plain paper and will vary pending on the nature of the document, the operator skills and the work organisation). It is the ideal solution for medium to long runs with a regular output.

## FEATURES \& BENEFITS

- Productivity: The left and right corners can be cut simultaneously in a single stroke. The cutting thickness of up to 100 mm combined with a speed of up to 24 cycles / minute provide optimum output for one man operation.
- Versatile: The DCR400 can accommodate a wide range of dies with radius ranging from $1 / 8^{\prime \prime}(3 \mathrm{~mm})$ to $1^{\prime \prime}(25 \mathrm{~mm})$. It can also be operated as a single corner rounding machine.
- User-Friendly: Easy adjustments and adjustable work table angle ensure optimum working conditions.
- Wide range of tools: Many types of cutting dies are available with the radius from $1 / 8^{\prime \prime}(3 \mathrm{~mm})$ to 1 " ( 25 mm ).

Min : 85 (CS) $\times 55 \mathrm{~mm}$ Max : 400 (CS) $\times 297$ mm CS = Cut Side

220/240 V (50 Hz) - 1ph $110 / 220 \mathrm{~V}(60 \mathrm{~Hz})-1 \mathrm{ph}$

Up to 100 mm

Required

From 6 to 8 bars

Up to 24 cycles per minute

Easy-to-use digital touch screen

Safety system for optimum protection of the operator's hands

Document stack holding system for clean and precise cutting operations

Adjustment wheel for quick and easy setting of the cutting dies to the desired size

Quick and easy change of cutters with toggle clamping

## Available gouges

Diam. 1" Radius R12.7 mm

Diam. 7/8" Radius R11.11 mm

Diam. 7/6" Radius R5.56 mm

Diam. 3/8"
Radius R4.77 mm
*Standard gouges

Diam. 3/4"
Radius R9.53 mm
*Standard gouges

Diam. 5/16" Radius R3.97 mm

Diam. 5/8" Radius R7.94 mm

Diam. 1/4"
Radius R3.18 mm

Diam. 9/16" Radius R7.15 mm

Diam. 3/16"
Radius R2.38 mm

Diam. 1/2" Radius R6.35 mm

Diam. 1/8"
Radius R1.59 mm

## TECHNICAL CARACTERISTICS

| Size min. of the documents | $85(C S) \times 55 \mathrm{~mm} \mathrm{(CS=Cut} \mathrm{Side)}$ |
| :--- | :--- |
| Size max. of the documents | $400(C S) \times 297 \mathrm{~mm} \mathrm{(CS=Cut} \mathrm{Side)}$ |
| Max. cutting thickness (paper) | Up to 100 mm |
| Cycle speed | 24 cycles / minute |
| Cutting diameter | From $3,18 \mathrm{~mm}\left(1 / 8^{\prime \prime}\right)$ to $25,4 \mathrm{~mm}\left(1{ }^{\prime \prime}\right)$ |
| Feeding mode | Manual |
| Power | $220 / 240 \mathrm{~V}(50 \mathrm{~Hz}) 1 \mathrm{ph}-110 / 120 \mathrm{~V}(60 \mathrm{~Hz}) 1 \mathrm{ph}$ |
| Air required | 6 to 8 bars |
| Machine dimensions (LxPxH) | $840 \times 830 \times 1310 \mathrm{~mm}$ |
| Net weight | 220 kg |

* All above outputs are based on 80 gsm plain paper and will vary pending on the nature of the document, the operator skills and the work organisation.
