

Punch3400

Electric Punching Machine

When innovation makes productivity and flexibility compatible... The Punch3400 is a heavy duty electric table top machine suitable for all punching applications when automatic equipment is not appropriate. Compact, it takes little working space.

Combined with the optional reception module, its unique punching, sheet ejection and stacking system in ONE operation provides one of the highest output (15.000 to 18.000 sheets / hour, pending on operator and nature of documents) in its range for a minimum investment.

FEATURES & BENEFITS

- **Efficient** : Punches bites of up to 30 sheets (80gsm) regardless of punching hole pattern. Punching, ejection and stacking in ONE operation with optional reception module re-delivering the punched sheets in the right order for increased productivity.
- **User friendly** : Easy edge to hole margin adjustment. Selectable operation mode (sheet presence detector or foot pedal). Easy and accurate vertical sheet insertion. Reversing switch for quick release of paper jams.
- **Versatile** : Fast and easy punching tool change over. All punch pins can be easily disabled for custom punch patterns (all pins being the same length, no re-positioning difficulty).

Document Size

Max: **340 mm (BE)** x 340 mm
BE = Binding Edge

Book Thickness

Max: up to 3.0 mm
(in manual mode)
Max: up to 2.5 mm
(in semi-automatic mode)

Capacity per hour

Max: 15.000 to 18.000 sheets
(pending on operator and nature of documents)

Power Requirements

110/120 V (60 Hz) - 1ph,
220/240 V (50 Hz) - 1 ph

Air Required

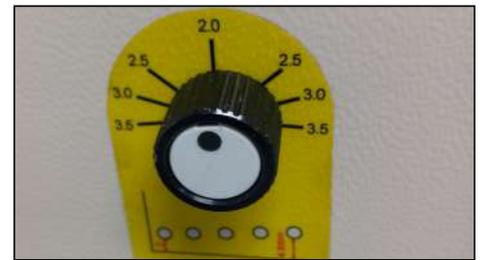

No

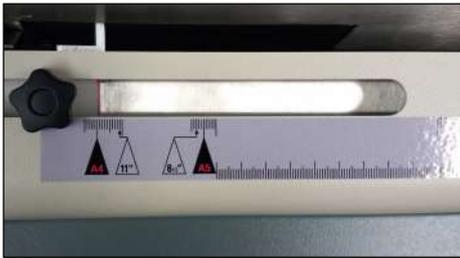

Punching and ejection of the sheets performed either from above or from below (in its optional reception module)

Selectable operation mode by foot pedal or by sheet presence detector

Quick and easy edge to hole margin adjustment

Possible adjustments according to the size of the sheets (A4, A3, ...) to be punched

Possibility to adjust the width of the reception module for increased productivity

Drawer for collecting confetti from the punching operations

Storage space for changeover tools (up to 6 slots)

Presence of a folding table to meet practical needs

Possibility to change the support of the sheets according to their formats

SPECIFICATIONS

Max document size	340 mm (BE) x 340 mm (BE = Binding Edge)
Punching productivity	15.000 to 18.000 sheets / hour <i>(pending on operator and nature of documents)</i>
Punching capacity	30 sheets max (80gsm)
Cycle speed	60 punches / minute
Power requirements	220/240 V (50Hz) 1ph - 110/120 V (60Hz) 1ph
Machine dimensions (LxWxH)	680 x 565 x 460 mm
Net weight	50 kg / 110 lbs
